Phase I	**Phase 2**	**Phase 3**
1. Design and build website space on the internet	1. Format the home page and start adding information to the page	1. Add any suggested pages or features to the website
2. Develop landing/home page for the website	2. Add some "place holding" pictures to the Gallery page.	2. Add more data to existing pages
3. Develop a landing space for RSS feeds (blogs)	3. Build a page to post Zoom members address information.	3. Once again solicit members for inputs on what they would like to see on the site.
4. Make a page for a photo gallery	4. Refine the members area to include a search function (hopefully by name, state, etc.)	
5. Make a page for information relating to this site and information about it (about page)	5. Solicit members to test website and make suggestions for improvement	
6. Generate a contact page for others to contact me with thoughts and ideas	6. Ask for volunteers to "proof" the site and make suggestions as to what should be added to the site.	
7. Make an area for Frequently Asked Questions (FAQ page)
